Google AI Studio

The screenshot displays the Google AI Studio web interface. At the top, the title bar shows 'Google AI Studio' and 'Untitled prompt'. The left sidebar contains navigation links: 'Get API key', 'Create Prompt', 'Stream Realtime', 'Starter Apps', 'Tune a Model', 'Library', 'Allow Drive access', 'Prompt Gallery', 'API documentation', 'Developer forum', 'Changelog', and 'Settings'. The main area features a 'System Instructions' box with the text 'Optional tone and style instructions for the model'. Below this is a large text input field containing the prompt 'What will you build?' and the instruction 'Push Gemini to the limits of what AI can do, powered by the Gemini API'. Three suggested prompts are shown: 'Twisted Search' (Search with a funny twist!), 'Coffee Bot' (Order coffee from a virtual barista), and 'Regex Wizard' (Create regex from text input). The right sidebar, titled 'Run settings', includes a 'Model' dropdown set to 'Gemini 2.0 Flash Experimental', a 'Token count' of 0 / 1,048,576, a 'Temperature' slider set to 1, and toggle switches for 'Structured output', 'Code execution', and 'Function calling', each with an 'Edit' link. At the bottom, there is a text input field with the placeholder 'Type something' and a 'Run' button.

Практические задания 5.1. и 5.2.

Используя предложенные шаблоны промптов, протестируйте возможности использования ИИ-помощника `gemini.google.com` для анализа данных из таблиц
